

# SUPPORT THE EDUCATIONAL SHIP LA FRATERNITÉ-COQUE NOMADE

## open-air slavery history book

The “La Fraternité-Coque Nomade” is a replica of an 18th century slave ship, the Aurore. Reconstructed in the form of containers, it can be disassembled and will therefore travel around France and abroad to make the general public and schools aware of slavery, past and present. An appeal for donations has been made to continue its construction, which started in 2018.

### A work of memory for the future

This project is led by the Nantes-based association “La Coque Nomade Fraternité” located in France, which has been raising **awareness about the history of the slave trade and slavery for the past 20 years** through various cultural activities and school events.

### The “Le Mât de la Fraternité,” emblem of the project

18m high, the “Le Mât de la Fraternité” will be **illuminated with multiple LEDs which will represent the donors** and the growing support for the project. In addition, the names of the donors will be inscribed at the foot of the Mast. It will be installed by 2022 at Île de Nantes, France, near the association's headquarters, the Fraternité Pavillon.

### A challenge to be faced together!

The “La Fraternité-Coque Nomade” will be itinerant and transportable by container. It will sail throughout France and abroad to make history more accessible and tangible. Open to the public, families and schools, to better understand slavery and the attacks on human dignity of the past and present, it is **designed as an open-air history book.**

### A donation of €100 costs €34 after tax deduction

Since our association is recognized as being in the public interest, **your donation allows you to benefit from a tax reduction equal to 66% of the total payments** within the limit of 20% of the taxable income of your household. Therefore, a donation of €50 costs only €17 after tax deduction. You can give whatever amount you wish, every donation, every support counts !
